COVENTRY ROOFS & TRIMS

ROOFING SPECIALISTS

Welcome to Coventry Roofs & Trims

Coventry Roofs & Trims is a local family roofing company that specialise in modern and traditional roofing systems as well as providing a full range of roofing and roofline repairs in Coventry and Surrounding Areas. We have a proven track record and constantly strive to ensure every single client is a happy client. With over 20 years experience in the roofing industry we have built up a great reputation as being High Quality, Reliable and Affordable 'One Stop' Roofing and Roofline Specialists.

Fascias, Soffits and Guttering Professionally Installed by Coventry Roofs & Trims

Your Local Trusted Roofers

Fascias, soffits and associated roofline products are essential components for any property. Exposed to the elements, they play a crucial role in protecting the roof space and rafters of your home. They may go unnoticed most of the time, but old, rotten or discoloured timber fascias and soffits can spoil the look of your property and cause expensive damage to your roof rafters.

Roofline components need to be durable, weather-resistant, attractive and – due to their difficult-to-access location – low maintenance. Our PVC-u roofline products meet and exceed all of these requirements. Trust Coventry Roofs & Trims your local Roofline Specialists to deliver on quality, service and price.

Complete PVC-U Roofline Systems

We offer everything you need for a complete, high-performance roofline system, manufactured to the highest quality standards. From fascias, soffits and guttering to dry verge, over-fascia ventilation and all the essential trims and accessories – we can install a roofline system that will really enhance your home.

Colour-match and Quality Guaranteed

All our roofline systems are supplied by the same manufacturer, which means all colours are exactly matched across the product range. That means our whites are the same white across all products and our woodgrain finishes are all perfectly matched. Our roofline products also carry guarantees of 10 years against discolouration, warping and cracking.

Why Choose PVCu Roofline Products

Aesthetic Appeal

PVC-u fascias, soffits and roof trims will brighten up your property, giving it a fresh new lease of life. All roofline products are available in a range of colours and woodgrain finishes to suit individual property styles and personal tastes. You can also choose plain flat boards for a simple, contemporary look, or sculpted 'ogee' style options for a more decorative finish.

Low Maintenance for Life

PVC-u fascias, soffits and other roof trims require very little maintenance an occasional wipe clean with a damp cloth is enough to keep your fascias and soffits looking as good as new, for life. PVC-U products will not rot, crack or warp and will remain a long-term, maintenance-free asset to your property.

Benefits of PVCu Roofline Products

No painting

PVC-u roofline products require no sanding, painting or treatment – ever. Installation is clean and hassle-free, with no dust or mess. Your fascias and soffits will retain their appearance and performance without the need for any preservative treatments.

Long-life Performance

White PVC-u roofline products come with a 20-year guarantee against discolouration, warping and cracking. Coloured, laminated boards carry a ten-year colour-fastness guarantee.

Guttering Systems

Durable Rainwater Systems

Low maintenance for life

Guttering not only ensures efficient drainage of your roof, but can also improve the appearance of your home. Our complete range of PVC-U guttering and associated components is suitable for all types of domestic and commercial property. Manufactured from high-impact, high-gloss PVC-U for a durable, weather-proof finish, it is quick to install and comes with a ten-year guarantee for durability and colour-fastness*.

All styles of guttering come with a full range of matching accessories and fitting systems and offer an exact colour match with our roofline products.

Installed by Coventry Roofs & Trims

Dry Verges

Designed to neaten up the edges of tiled roofs and block any gaps that could allow infestation of the roof space, dry verge is the perfect finishing touch to any roof. It is weatherproof, requires no maintenance and is the ideal way to tidy up your roof and cover any unsightly gaps. Dry verge is a mortar-free solution that can easily be fitted to existing roofs, with no need for wet trades. The clip-together system provides a secure fitting that avoids the problem of wind uplift. Our PVC-U dry verge is compatible with most concrete or clay interlocking tiles and comes in five colours to complement your home:

New Roof Installations

Slate and Tiled Roofs
Conservatory Warm Roofs
1 Piece Rubber Roofing
Felt Roofing

All roof installations come with our 20 Year "No Quibble" guarantee for total peace of mind.

**New Roofs and Re-Roofs
Professionally Installed by
Coventry Roofs & Trims**

Your Local Trusted Roofers

We offer a complete replacement roof service - you could even get money off our service if your trade in your old tiles or slates.

So how do you build a new roof?

First of all, scaffolding will be erected around your property to meet health and safety regulations. We strip off existing roof covering, and cover the roof using a high performance breathable felt.

Next, we batten the roof, fixing on every rafter with galvanized ribbed nails. Afterwards, we tile the roof in the tile/slate of your choice. We can either use dry hips and verges or the most common choice: mortar. We always ventilate roofs accordingly, and all rubbish is disposed of daily, keeping your property tidy and disruption to a minimum.
